- Build new business-to-business relationships
- Increase customers and sales of products and services

ABOUT US

Texas Association for Supervision and Curriculum Development (Texas ASCD) works daily to make a difference in education by ensuring educators have the professional skills needed to provide a rigorous and relevant learning experience for student achievement. Educators across the state need our assistance to provide them with professional learning events. This task can be daunting as a 501(c)(3) non-profit association. Nevertheless, with help from our corporate partners, we can continue to provide the necessary professional learning to help educators succeed in their field.

Texas ASCD remains a constant resource in the ever-changing world of education, maintaining our vibrancy through our unstoppable commitment and dedication to lifelong learning for educators. By partnering with your corporation, together we can make a significant difference. You have the resources to help us promote educator achievement and create lasting change for students across Texas—we can do more together!

In exchange for your investment, we are proud to offer a pathway to increased brand visibility through a highly-targeted market. Your partnership will illuminate our agencies' commitment to state educators and, ultimately, the children of Texas. As a corporate partner, you will play a vital role in communicating emerging trends while improving and transforming the public education system. In return for helping us continue to provide the high-caliber content educators expect, we offer you a wealth of benefits and an outstanding return on investment customizable to meet your individual corporation's needs.

Since 1947, Texas ASCD has championed improving teaching, learning, and leading. This is reflected in our diverse membership of over 3,000 superintendents, curriculum directors, principals, teachers, and regional affiliates across the state. Your corporate donation will support our two annual conferences, professional learning institutes, and regional academies, providing educators with the tools and resources necessary for their success. In addition, Texas ASCD will deliver maximized corporate recognition and customized opportunities to interact with our membership in various forms of media as well as face-to-face interaction.
